Flexibility and scalability built for the future

Issuance capabilities include physical cards

- On-prem deployment

Expand your ID program as your needs change by adding multi-hopper, smart card capabilities, color tactile printing, and more

Print anytime, anywhere with your mobile device (iOS, Android, Windows)

KEY FEATURES & BENEFITS

Get a high-end look for every card design

600-dpi resolution retransfer printing provides precise, photo-quality imagery as well as microtext, bar codes, and other machine-readable elements

Pigment ink prints lifelike skin tones so you can more accurately authenticate each cardholder to improve security

Over-the-edge printing with retransfer technology allows you to print on multiple card types, including technology cards

On-demand printing means you can print exactly the design you need, eliminating the need for pre-printed cardstock

UV printing and other security features added to cards protect from tampering and counterfeiting
